To Whom it May Concern,

Several years ago I fractured 3 vertebrae in my neck and back. The doctors prescribed daily narcotic and Advil use. Because of my profession as a pilot, I am unable to seek relief through narcotics. 2 years later I still suffered daily pain, trouble sleeping and severe headaches. After 3 treatments with Dr Sebastian Gonzales. My daily Advil use has been reduced by 50%, I am sleeping much better and have not had a severe headache since I first saw him.

His expertise especially in working with Golf and other activities is unmatched.

Gary Reeves
CFI, CFII, MEI, ASEL & AMEL Commercial Pilot
