As a videographer, I have been seeing a chiropractor for years due to strain on my neck from holding the camera. When Sebastian asked me to produce a video for his business, he offered to give me a treatment of ART. I was amazed at what he could do. By working on my neck and back, he was able to keep me pain-free for a matter of weeks...something that regular chiropractic could not do for me.

I can see the benefits of regular ART treatments, and won't hesitate to refer anyone that has neck or back pain. I can attest to Sebastian's knowledge and ability. Thanks, Sebastian!
