THANK YOU: SEBASTIAN GONZALES,

I have had lower back pain for many years. I went to chiropractors on and off with may a week of pain re leaf after each visit. I had finally decided that I would just live with the pain. When I first meet Sebastian I thought his treatment would bring the same results maybe a week of re leaf like everything I had already tried.

I was amazed, his treatment was completely different then anything I had done before. Sebastian was very informative all the way though the treatment. Even after the first treatment the pain was much less. After only two visits if felt 100% better and the great part is the pain stayed away. I would and do recommend Sebastian to my friends and family for their pain needs.
